Factory Sealed KaVo EXPERTsurg LUX Complete Implant Motor Package with S201 XL Pro

Price

\$4,995.00

Description

For sale is a complete, current-production KaVo implant surgery package. All three original factory boxes are sealed and have never been opened or used. The actual factory labels are pictured and show each reference number and manufacture date.

Package includes:

- KaVo EXPERTsurg LUX, Ref 1.008.3500, manufactured June 5, 2025. Factory packaging identifies the INTRA LUX S600 LED motor and sterile S600 tubing. The standard EXPERTsurg configuration includes the controller, wired multifunction foot control, motor and cable, starter irrigation tubing, holders, irrigation bracket, integrated pump, and power supply.
- KaVo SURGmatic S201 XL Pro 20:1 optic implant contra-angle, Ref 1.013.7541, manufactured February 26, 2026. Rated for torque up to 80 Ncm.
- KaVo EXPERTsurg US/Canada accessory pack, Ref 1.013.3942, manufactured May 26, 2026. Includes US/Canada plug and instructions for use.

The equipment has not been opened for testing so the factory seals can remain intact. Manufacturer reference photos show the equipment; the additional photos show the actual sealed boxes and dated labels. Warranty status or transferability is not represented and should be confirmed directly with KaVo.

Shipping or local pickup, insured delivery, payment, and inspection arrangements can be agreed with the buyer. Sale only to a properly licensed dental or healthcare professional or qualified facility, consistent with the federal restriction shown on the factory labels.
